

LIVING EXPENSES Version July 24th 2025

What do you spend each month on living expenses?

About this worksheet

This worksheet is designed to capture your **basic** living expenses into four specific categories, namely “General living & entertainment expenses”, “Additional living expenses”, “Investment property expenses”, & “Post loan rental expenses”. Understanding your total living expenses is an important responsible lending obligation to ensure the Banks and ourselves understand all aspects of your current and proposed financial position so we can make an informed decision in respect to your ability to afford the proposed loan repayments based upon your chosen lifestyle and expenditure.

Key aspects on how to use this worksheet

- ❖ The savings statements and credit card statements we've requested from you, please review each transaction and email us back if any of them are large one-off expenses which should not be included in your regular monthly living expense tally. Very important you do this as Bank's may question your declared total living expenses.
- ❖ Enter your **living expense amounts** on pages 2-5 beside every category **and in both columns**, even if it is a \$0.
- ❖ **Please write some commentary in each category if any of your expenses need justification. Your comments will help with your loan application being approved.**
- ❖ For the **Insurance** category, do not include any insurance expenses if it's paid for via your superannuation or self-managed super fund (SMSF)
- ❖ Your **investment property expenses** are to be included in the last page only.
- ❖ Do not include investment property expenses for an investment property if it is held within your SMSF
- ❖ If you are a 'couple', then please complete each category as **combined values** and not as two individual amounts
- ❖ If you are a first home buyer, we would expect to see some of your living expense amounts to change **once your proposed loan is drawn down** so please reflect this in your answers.
- ❖ **Do not include** any loan repayments, or credit card repayments, or mortgage repayments - we're just interested in your **expenses** on this form. Your debt repayments are captured under 'liabilities' within your loan application
- ❖ Below is a guide as to what your '**General living & entertainment expenses**' (GLEE) should be as a minimum (i.e. your total expense amount for **just** pages 2 & 3). Any total above what the bank deems as a minimum, will have an impact on your borrowing capacity. Having said that, if you are single and your gross income is > \$90,000 OR you are a couple and your household income is > \$150,000 then we would expect to see your GLEE to be higher than the below scenarios

Household	Monthly	Annual
Single with 0 dependents	\$1,950	\$23,400
Single with 1 dependent	\$2,400	\$28,800
Single with 2 dependents	\$2,970	\$35,640
Single with 3 dependents	\$3,520	\$42,240
Couple with 0 dependents	\$4,000	\$48,000
Couple with 1 dependent	\$4,290	\$51,480
Couple with 2 dependents	\$4,650	\$55,800
Couple with 3 dependents	\$4,800	\$57,600
Couple with 4 dependents	\$5,200	\$62,400
